

COVID-19 Cleaning your Lifting Cushion

When responding to a fall, Mangar recommend the follow steps with our products every time you use the Camel or Elk Lifting Cushion;

- 1. Wash your hands and put on disposable gloves**
(Make sure to not touch anything other than the products or patient during this time)

- 2. Collect the Camel or Elk Lifting cushion**

- 3. Attend to the fallen patient using the lifting cushion as per your training on the product**

- 4. Once patient is off the lifting cushion, and before you deflate, thoroughly disinfect the cushion**

- 5. Pack the cushion away as normal and return to storage location**

- 6. Throw away disposable gloves and wash your hands**
