

THE HOME OF ASSISTED LIVING & HEALTHCARE

# The Legrand Eco System

Stuart Carroll

# End To End Digital

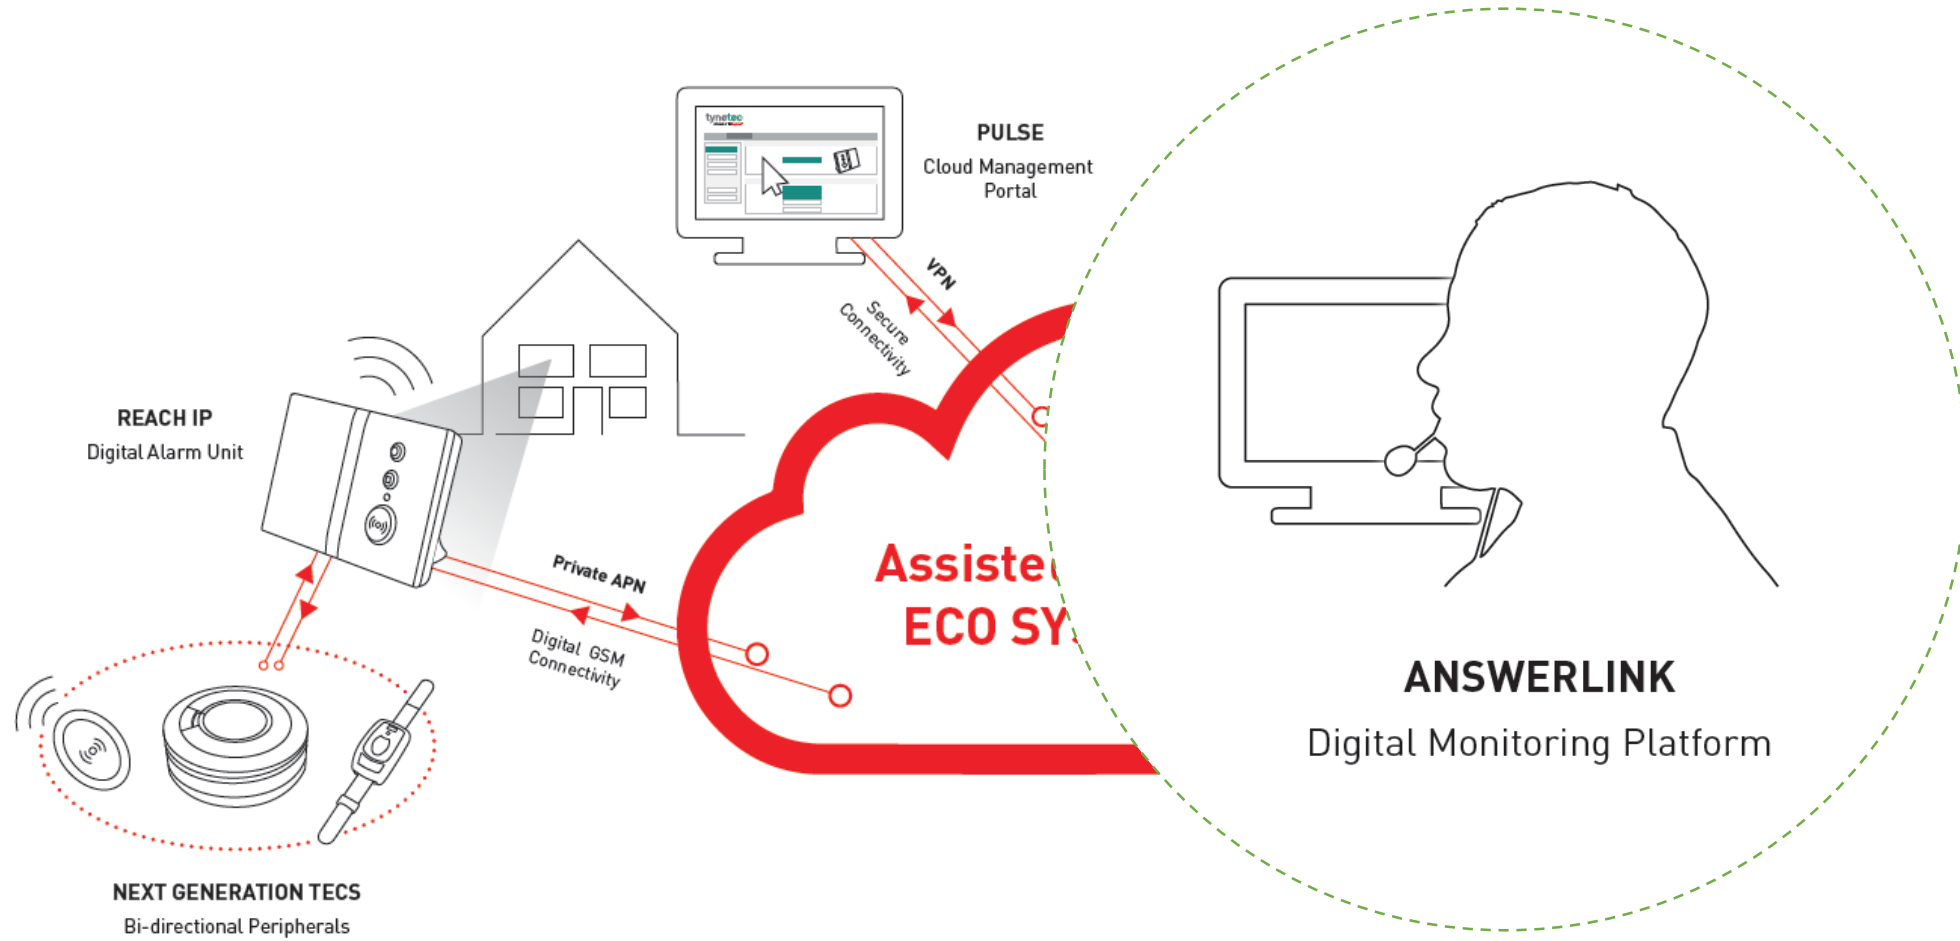

# Turnkey Solutions For All Care Environments

Key: ● tynetec ● Jontek ● Aidcall

# End To End Digital

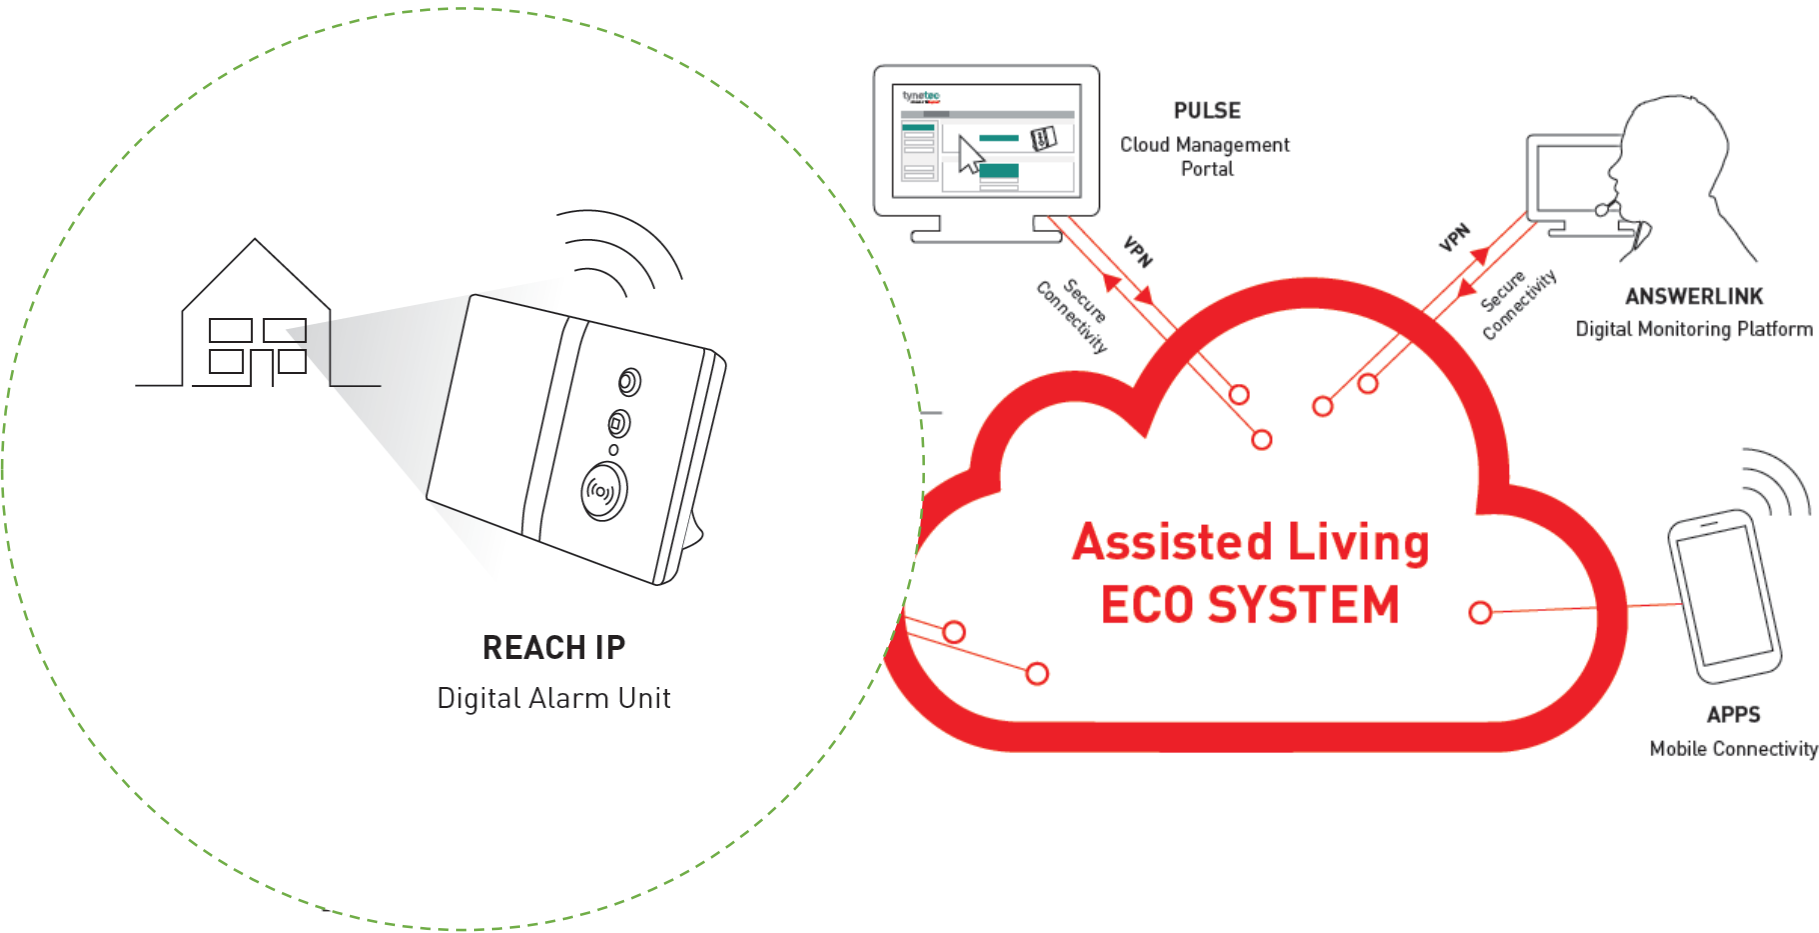

# It All Starts With The ARC

---

- Digital starts with the ARC
- Hybrid solution
- Significant ecosystem advantages
- Open, ratified IP protocols
- Open API to facilitate interoperability
- Interrogatable data well
- Much more than just call handling
- Multiple environment options

# The Residential End

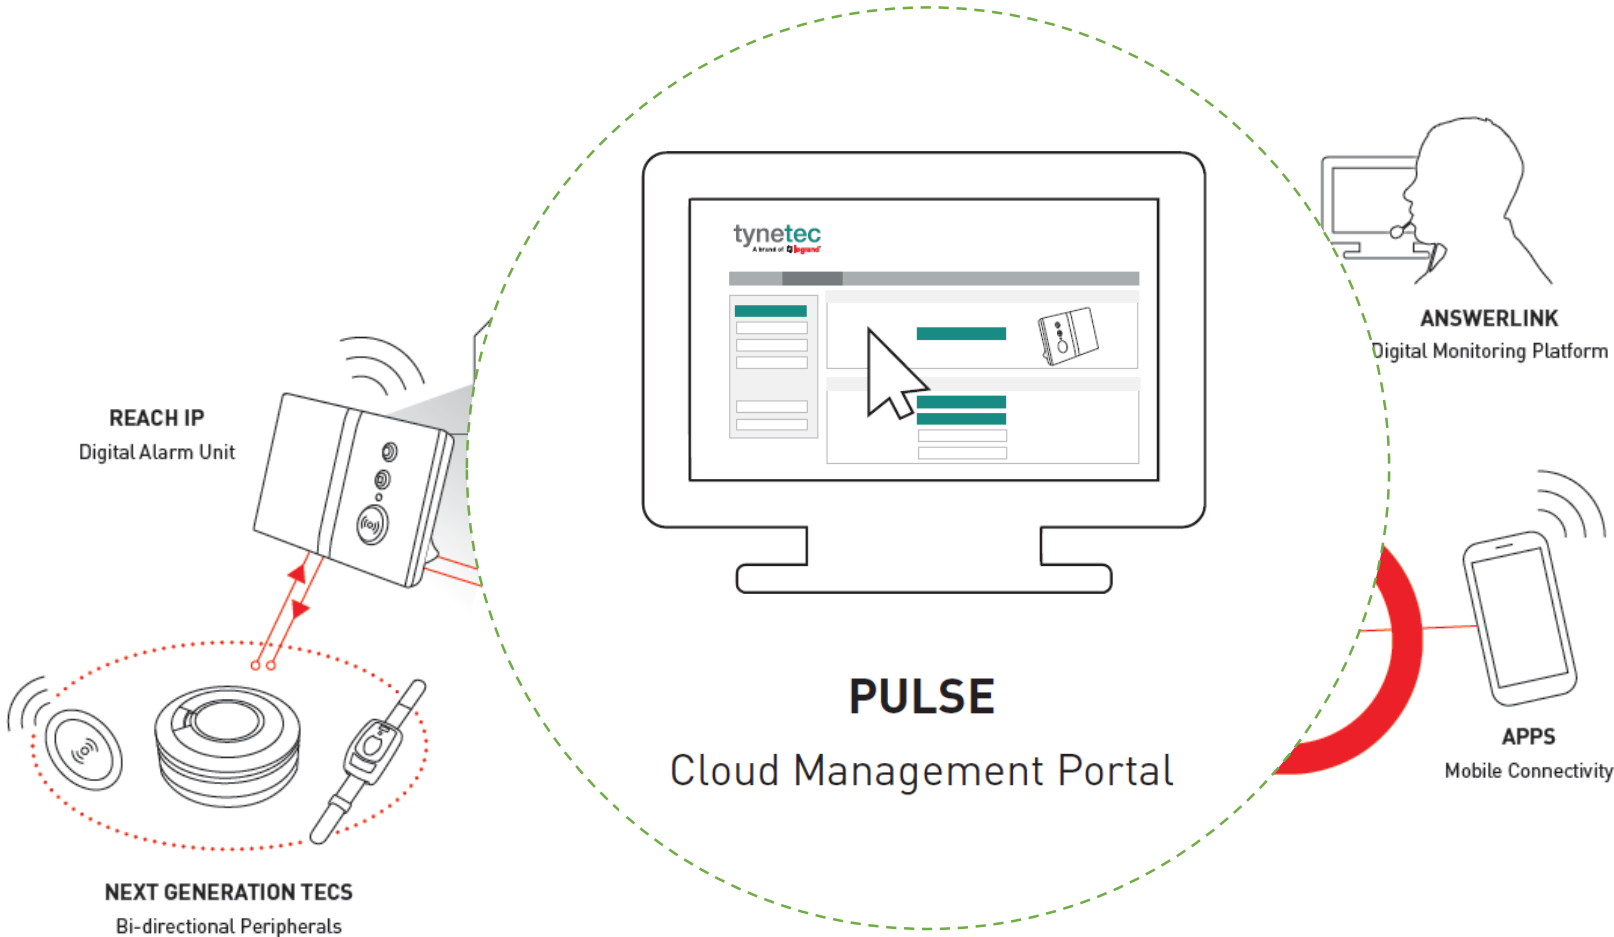

# The Residential End

- Critical connectivity
- Speed of connection
- Always on
- Plug & Play
- Flexible configuration
- Cloud connectivity
- Transformational

# Cloud Management

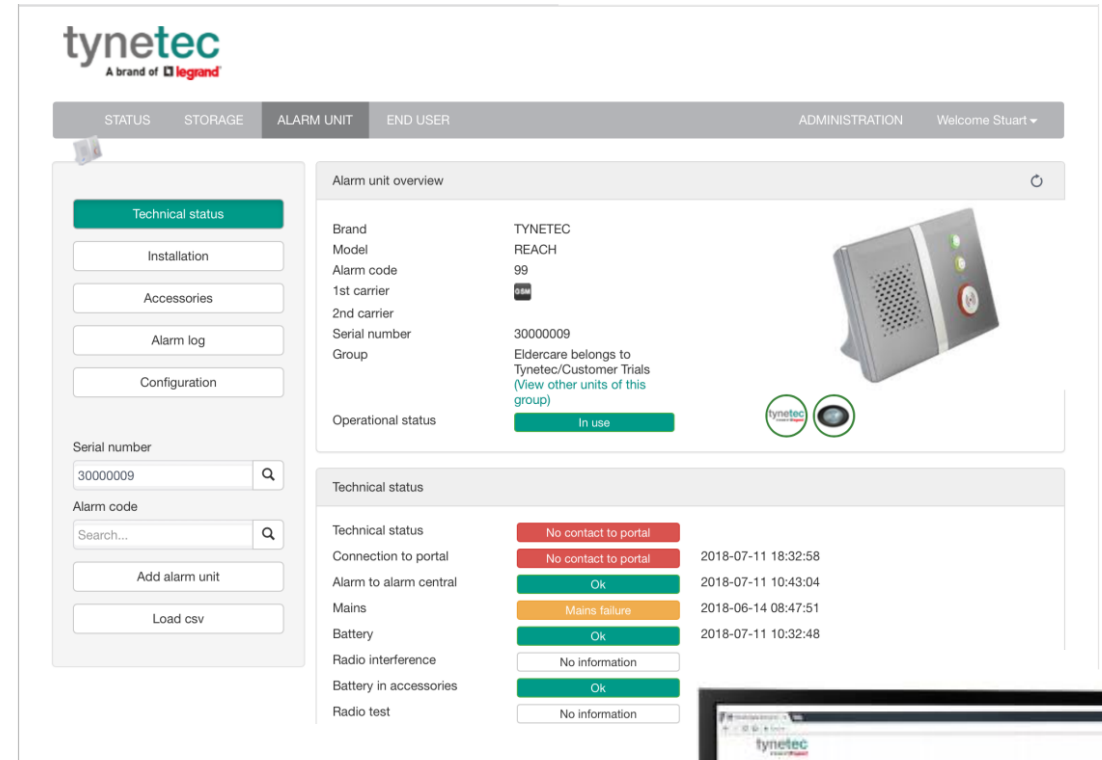

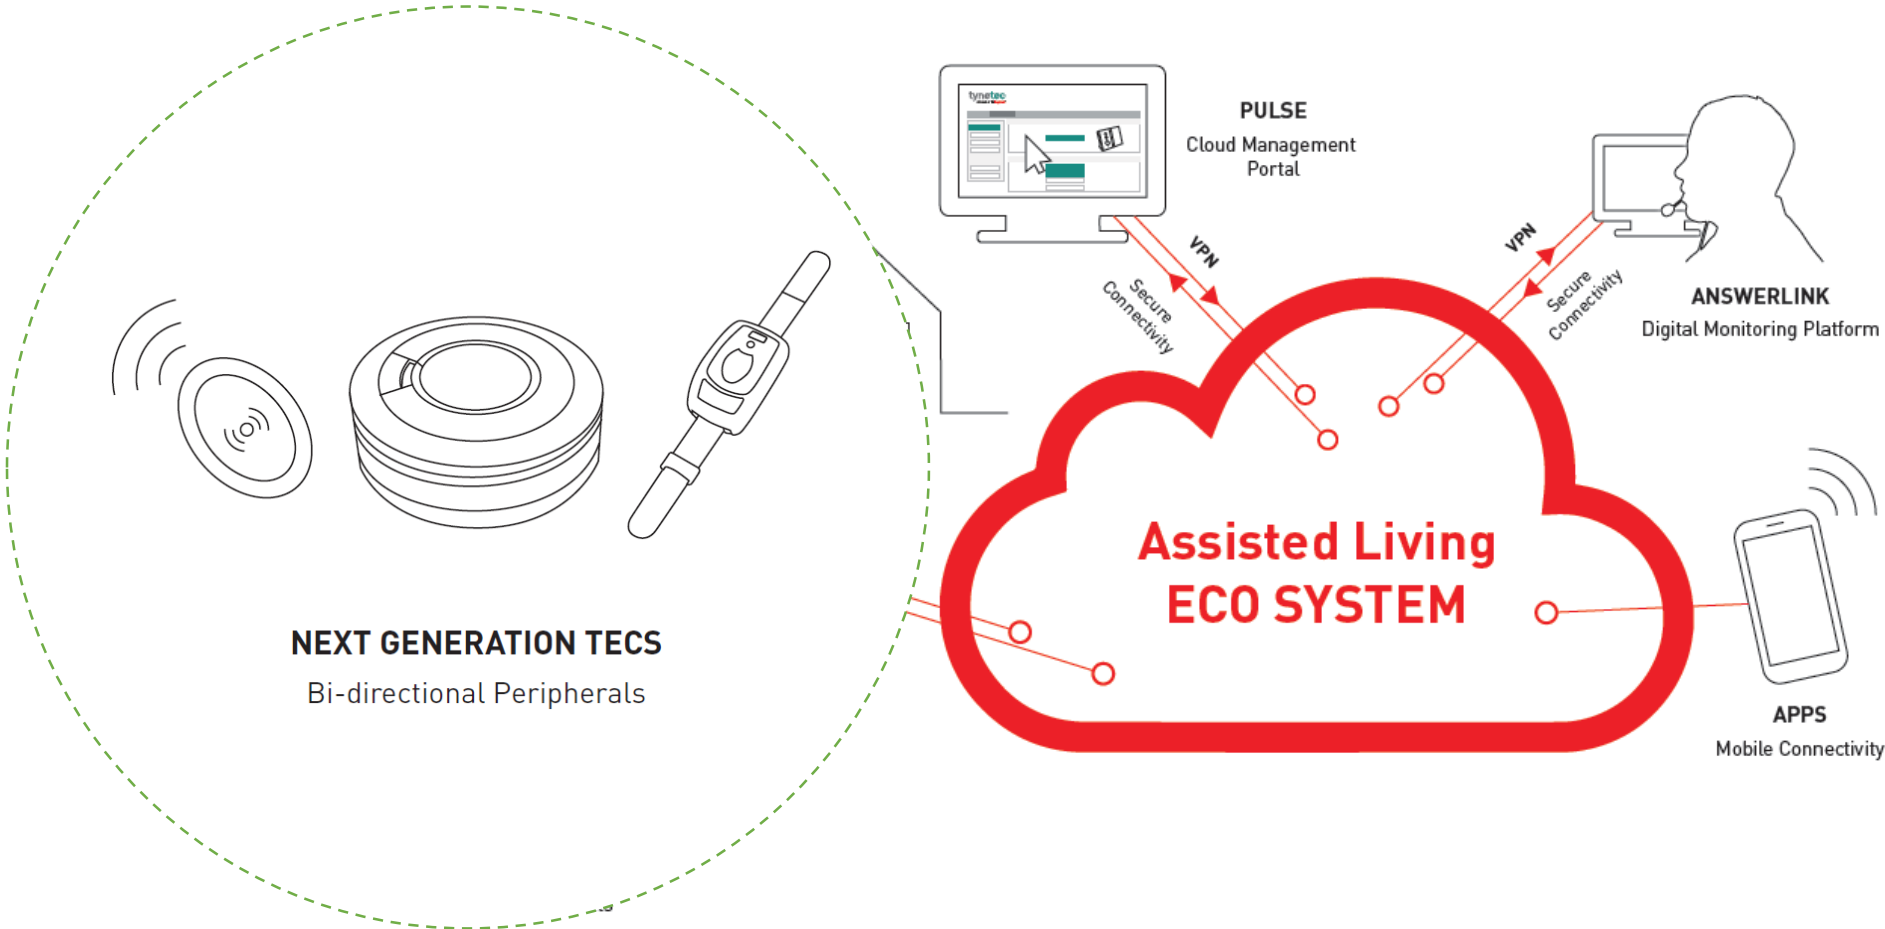

# Cloud Environment Pulse CMP

A cloud based management portal where all programming & software changes can be made remotely. A service transformation game changer:

- Alarm unit configuration
- Peripheral programming
- Protocol management (A2D)
- Asset management & tracking
- Remote firmware updates
- Alarm & event audit trail
- Push notification emails
- Part of the ecosystem

# Next Generation TEC

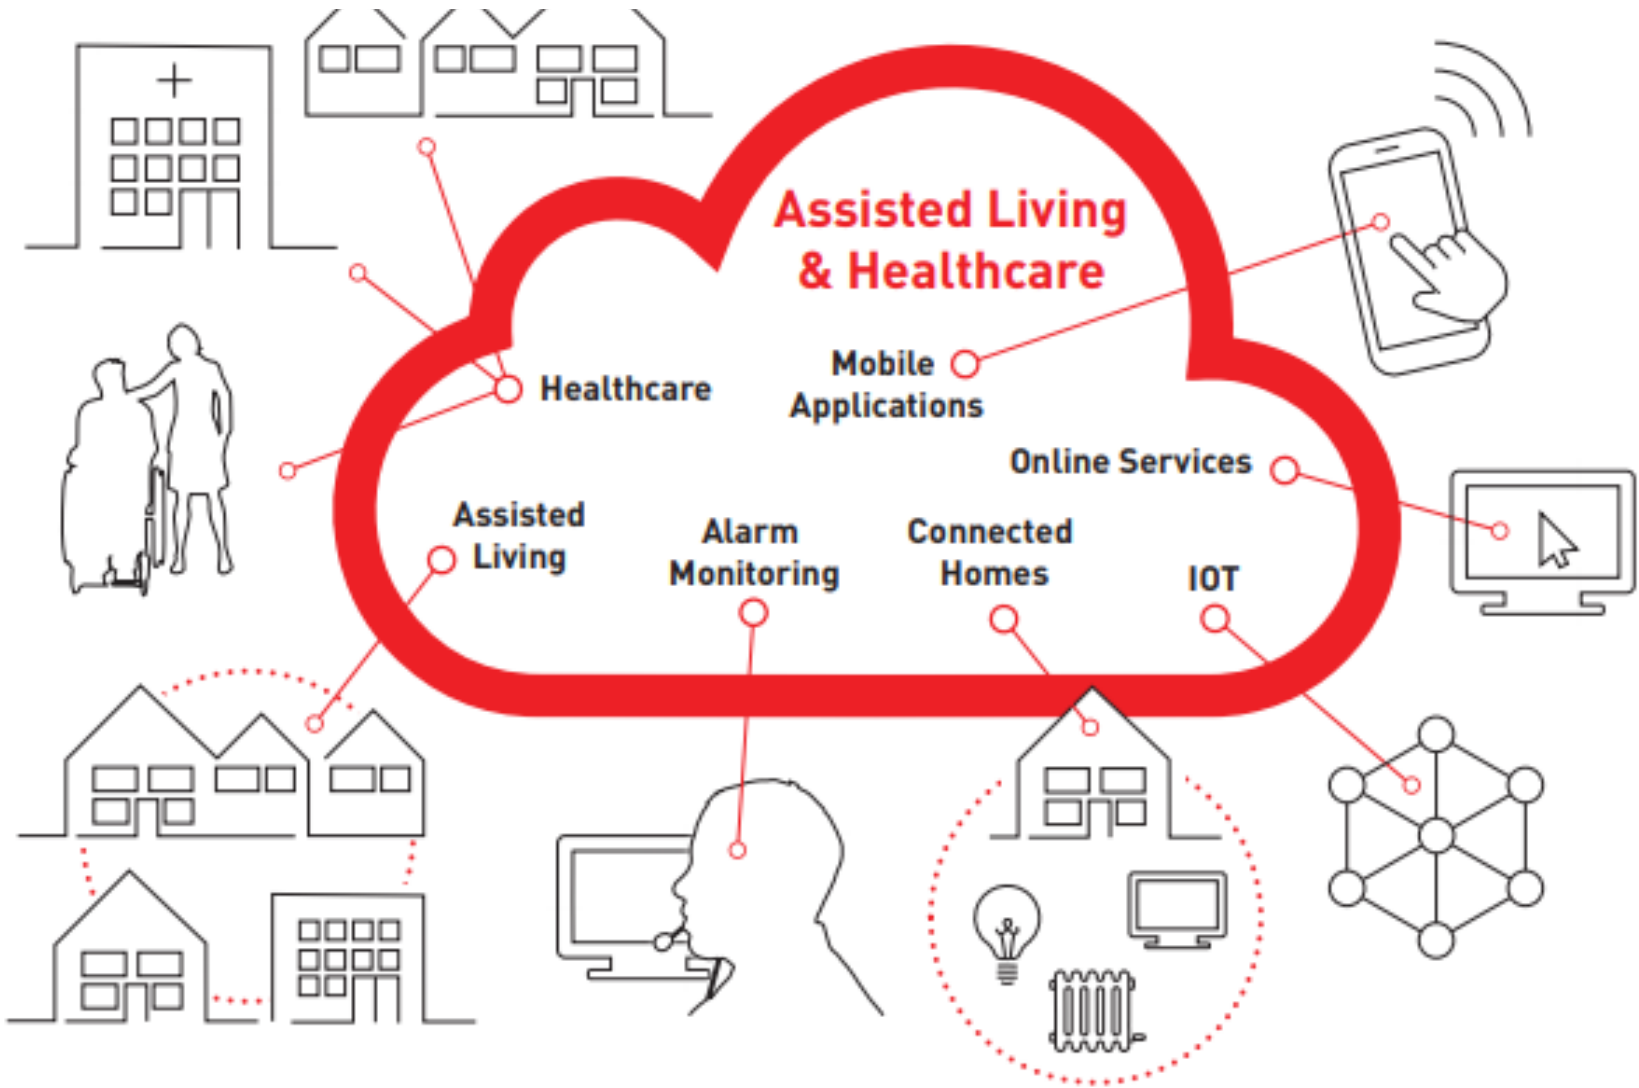

# Next Generation TEC's

- Part of the ecosystem
- TAO digital range
- Bi-Directional peripherals
- True reassurance
- Enhanced battery life
- A new and evolving portfolio

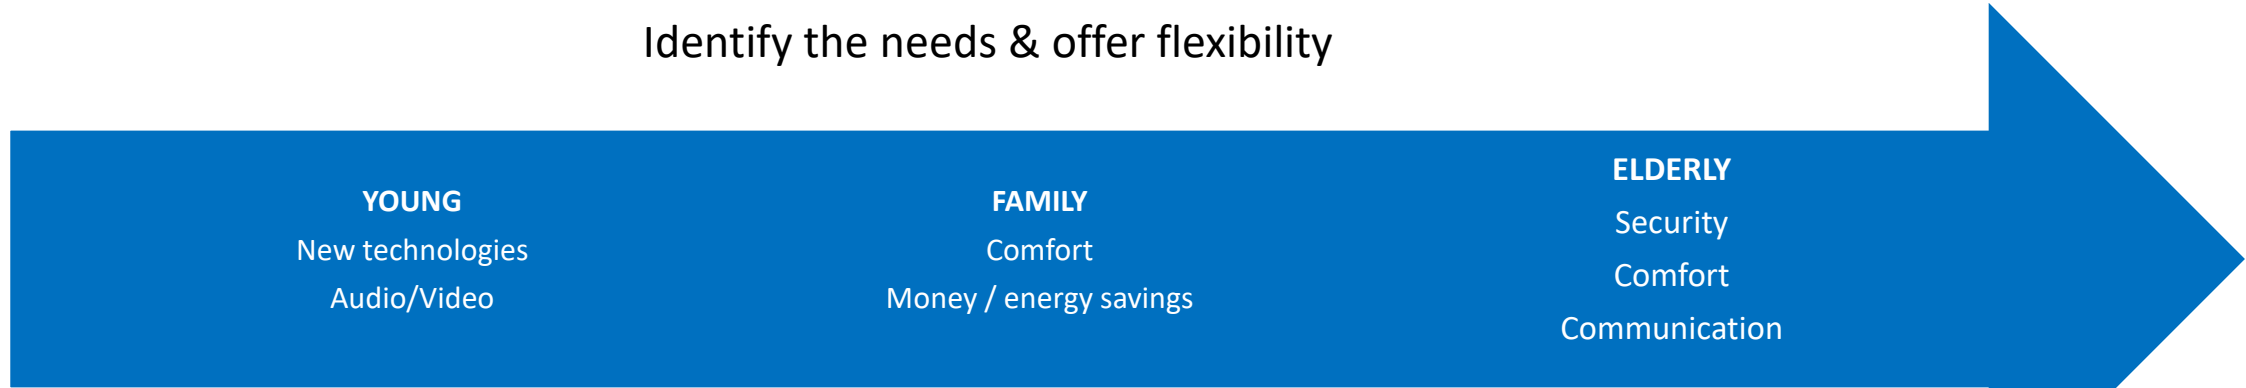

# The Connected Home

# The Connected Home For Life

RESIDENTIAL

Identify the needs & offer flexibility

Smart sound system

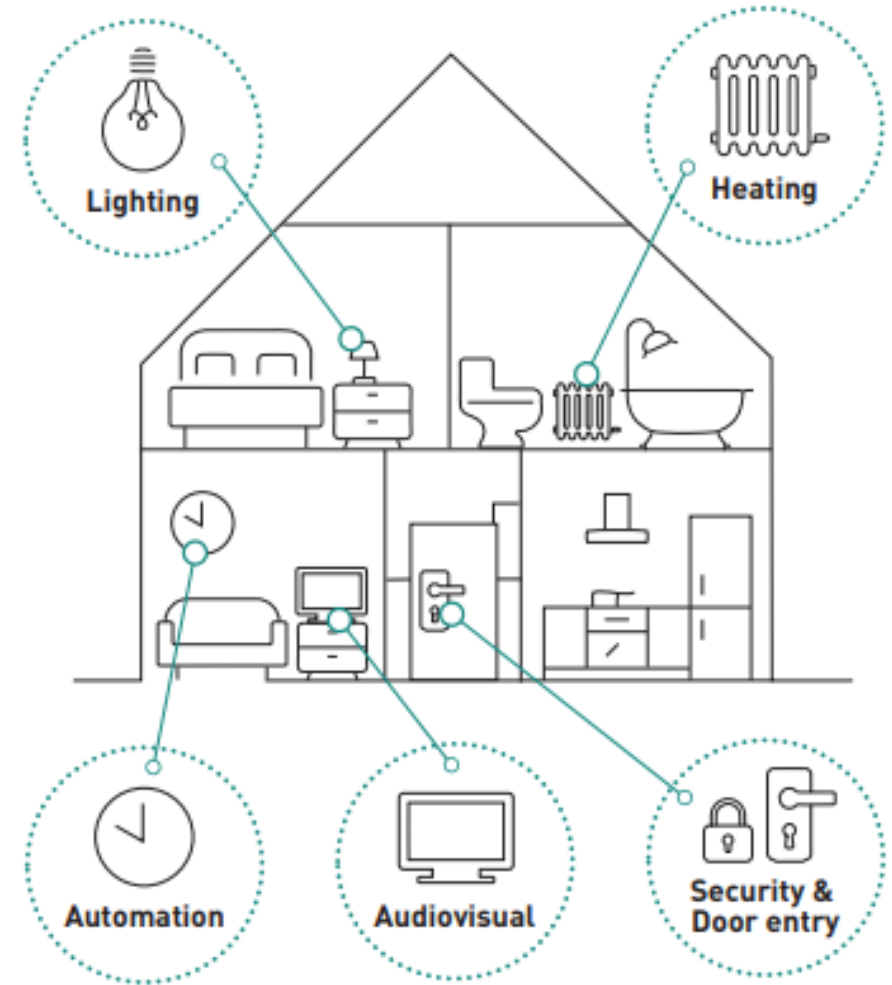

Display smart thermostat

Automatic skirting lights

# Digital TEC's Evolution

- Traditional TECs have focused on Reaction
- The need continues to increase as do the costs (personal & financial)
- Services must transform to deliver more for less
- A preventative digital ecosystem
- A reactive safety net
- A personalised solution
- An integration of Housing, Social Care & Health
- Creating appropriate environments that are flexible & adaptable
- Creating the ability to age in place

THE HOME OF ASSISTED LIVING & HEALTHCARE
