The voice of Technology Enabled Care

The TSA is the representative body for technology enabled care (TEC) services, working on behalf of and advising organisations including telecare and telehealth providers, suppliers, housing associations, care providers, emergency services, academia, charities, government bodies and health and social care commissioners.

Our vision is that people can choose technology enabled care to enrich everyday life.

Our mission is to drive the transformation and growth of the TEC industry.

Find TEC services search engine

Search for a Technology Enabled Care provider in your area or nationally

****New Search Function****

This facility is provided to help you to identify telecare and/or telehealth services for yourself or your family, friends, or people that you provide care for.

All of the organisations listed are TSA members, some are also certified to our Quality Assurance scheme – Quality Standards Framework (QSF) or Code of Practice (CoP). [Find out more here](#)

Search results are based on information provided to TSA by our members and are designed as a signposting service, please contact the individual organisations to confirm their services and availability.

TSA Special Interest Groups

@TSAVoice

www.tsa-voice.org.uk

Special Interest Groups – Member-driven

Testing Analogue Alarm Systems on Digital Networks

Operational Guidance on use of Fall Detection Technology

Operational Guidance on Interaction with Emergency Services

European Standards for Social Alarm Services

Operational Guidelines on KPIs

Mobile & Cellular Comms Guidelines

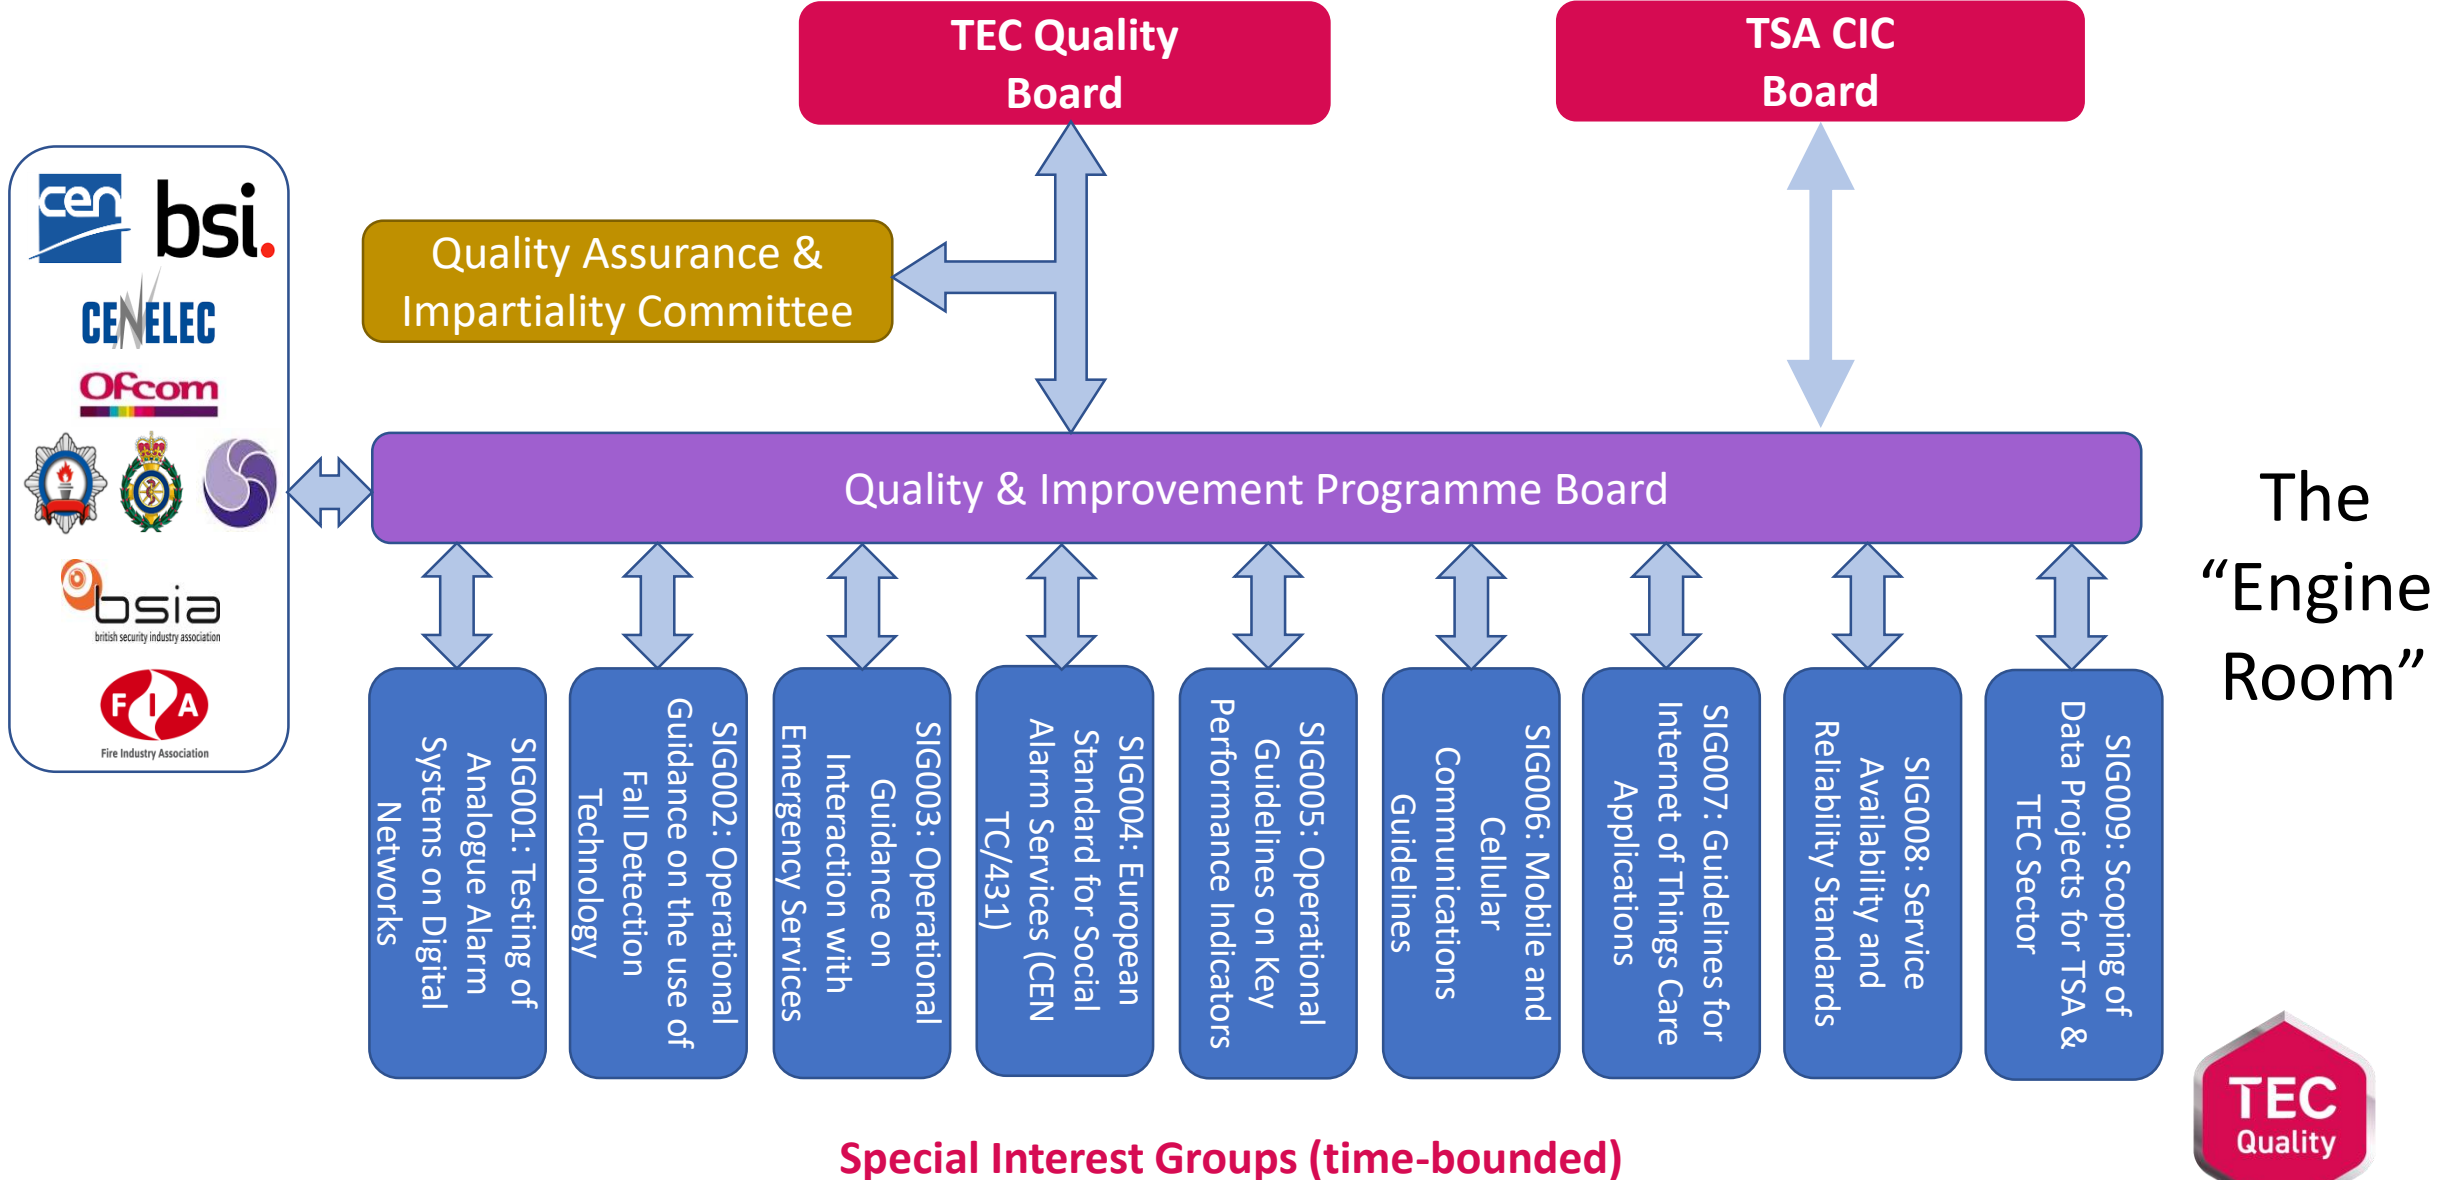

Guidelines for IoT Care Applications

Service Availability & Reliability Standards

Using Data & intelligence to optimise outcomes from TEC services

Advisory Group and Governance - Structure

Purpose of the SIGs

- To assist the **forward planning and risk management** of TEC services offered by TSA members
- Create National Standard operational guidance
- Develop call handling **triage tools**, customised to suit local requirements.
- Create additional **technical specifications** that focus on service delivery from emerging technologies
- Create and **amend KPIs** that can be established within the Quality Standards Framework (QSF)
- To provide Guidance on **communications** and **connectivity** options for TEC services
- Provide guidance on the safe and appropriate use of TEC systems that incorporate an Internet of Things (IoT).

Special Interest Groups – latest activity

Testing Analogue Alarm Systems on Digital Networks

001

Richard Hosier (Doro), Steve Sadler (TSA), Alan Usher (Astraline)

Testing current (analogue) alarms on a mixture of old and new networks.

Create technical summary of proposed test combinations.

Send test summary to suppliers for review (**March**)

Operational Guidance on Interaction with Emergency Services

003

Paul Finch (TSA), Gill Atkey (Appello), Kelly Miller (Sanctuary 365), Joanne Bushell (Progress) Rupert Lawrence (amica24), AACE, NFCC, NWS

Work reviewed by group and AACE & NFCC

1. Revised Guidelines for Programme Board Review. Sept
2. Recommendations for QSF Amendments, Sept.
3. Embed in QSF, Oct.
4. Release of Revised Guidelines + launch at Conference, Nov.

Operational Guidelines on KPIs

005

Alyson Scurfield (TSA), Paul Finch (TSA), Wendy Hodgson (TEC Quality)

Following UKAS review of QSF KPIs, a tiered grading approach to certification is being considered, to be applied to the Measures of Excellence.

The tiered rating system has been agreed in principal and work on the detail of the scheme has commenced.

Please show your interest in joining a SIG to: admin@tsa-voice.org.uk.

The Digital Shift

The Digital Shift – what we are doing

Objective: TSA to keep members informed about what's happening & what preparations they need to make

- NHSX & TSA scoping a combined marketing and communications strategy for the wider sector
- TSA has created **10 Key Facts of A2D** guidance sheet to support the sector
- Analogue to Digital TEC explainer video

TEC Explainer videos can be viewed online at:

<https://www.tsa-voice.org.uk/campaigns/tec-explainer-films-resource-for-social-care-workers/>

<https://www.tsa-voice.org.uk/campaigns/digital-shift/>

The Digital Shift – what we are doing

Objective: TSA to keep members informed about what's happening & what preparations they need to make

- NHSX & TSA scoping a combined marketing and communications strategy for the wider sector
- TSA has created **10 Key Facts of A2D** guidance sheet to support the sector
- Analogue to Digital TEC explainer video
- Lobbying Government for funding to support the sector
- **Real-time evidence and facts** on the communications providers shift to digital infrastructure –
Lead officer: Tim Mulrey
- Survey: **TEC failure rates** – Case studies and report presented to NHSX

<https://www.tsa-voice.org.uk/campaigns/digital-shift/>

TSA™

Openreach Trials

Objectives: To test the processes for

- a. moving customers from analogue to digital telephony on the last mile copper network (Mildenhall, Suffolk)
 - b. moving customers from analogue to digital telephony as part of a migration from copper to a full optical fibre network (Salisbury, Wiltshire)
- Both trials to run from now to December 2022 at which point it is expected that Mildenhall will run only IP voice services over either copper or fibre and a full optical fibre network is expected to be in place in Salisbury
 - The Mildenhall trial will use bulk provisioning of Fibre to the Cabinet (FTTC) whereas Salisbury will be trialling Fibre to the Premises (FTTP)
 - Openreach are no longer providing copper network for new installations
 - Openreach roll-back option will still be in place

Training and Workforce Development

Workforce Development – starting from the ground *up*

On the back of the leadership report we have identified workforce development as a key pillar to drive the sector forward and to support the transformation and culture change for social care workforce

To empower staff and provide the tools to embed TEC in service delivery models giving better outcomes from the service user

What? Give people and staff TEC tools – with *education, workforce development and culture change*

Result? Give *confidence* to staff and ownership to people's self-care routines - this is key to a healthier population *living well*.

Training and Workforce Development

- **TEC Specific Group Courses**
 - Assessing for Telecare
 - Call Handling for TEC
 - Supporting people living with dementia (Introductory & advanced courses available)
- **Core Competency Training**
 - Call Handling
 - Installation
 - Assessment
- Flexible learning courses – online - <https://www.learningcurvegroup.co.uk/landing/TSA>
- Power of Attorney

Bespoke package to suit your training needs – training@tsa-voice.org.uk

BE WORKFORCE READY

LEVEL 2 COURSE: INTRODUCTION TO TECHNOLOGY ENABLED CARE

1st qualification of its kind by
industry body TSA & awarding body
NCFE

Technology enabled care (TEC) is playing an increasing role in health & social care. TEC supports people to live independently in their own home – reducing admissions to care homes, hospitals or home care and improve their quality of life.

This qualification is designed to give you an understanding of TEC-based solutions to support individuals to live as independently as possible.

WHAT WILL I LEARN?

INTRODUCTION TO TECHNOLOGY
ENABLED CARE

UNDERSTANDING A PERSON-
CENTRED APPROACH TO
TECHNOLOGY-BASED SOLUTIONS

UNDERSTANDING ROLES AND
RESPONSIBILITIES IN RELATION TO
TECHNOLOGY- BASED SOLUTIONS

INTRO TO LEGISLATION,
SAFEGUARDING AND REGULATORY
REQUIREMENTS RELATING TO
TECHNOLOGY ENABLED CARE

Workforce Development & Training

Online Training

Takes an average of 6 weeks to complete (at your own pace)

Suitable for frontline staff and manager

Only CACHE Technology Enabled Care qualification in the UK

Contact TSA to hear of **funding** availability in devolved areas

TSA Events Programme 2020

@TSAVoice

www.tsa-voice.org.uk

TSA events programme

For the latest details on all of TSA events in 2020 please visit: <https://www.tsa-voice.org.uk/events>

TSA Connects

- Events located across the regions, working locally to help shape the content and focus of the connect events
- Showcasing innovative solutions
- Free to attend
- **Yorkshire Connect will take place on the 27th March – Limited places still available – Book via the TSA website**
- Connects in other regions throughout 2020 – Northern Ireland, South West, Midlands, London & South East

External Events

- Contributions at these events varies on an event by event basis, but can include TSA delivering plenary sessions, supporting breakout sessions and exhibiting.
- The goal is always to help widen the audiences that we can reach and push the Technology Enabled Care message to.
- External events for 2020 include: **Digital Health and Care Scotland / NAEP Conference / NCASC 2020 / Alzheimer's Society Annual Conference / Scottish Care National Conference**

Partner Events

- Participation will vary on an event by event basis depending on the key messages that are being delivered
- They will include TSA managing content on the shows TEC theatre, senior representatives delivering plenary presentations and we will also be exhibiting at several events over the course of the year.
- Events we are partnering on for 2020 are:
The Home Care Expo - 17th & 18th March at NEC Birmingham
Health Plus Care - 24th & 25th June at ExCel London

Citizen Powered Communities: Shaping the Future of TEC towards 2025

Strategic Events

- 12th May 2020, at the Radisson Blu Manchester Airport
- A visionary event that will help set out the strategy for TEC sector from 2021 - 2025
- An all member, free to attend event, anticipating over 200 attendees
- Chaired by TSA president Paul Burstow
- Key Strategic guest speakers, selected to give their expert views, and to help us develop the Vision and a Strategy for the future.
- Up to 20 Exhibitors showcasing the latest technologies
- Outputs from this event will help us shape key activities for the sector moving towards 2025

For the latest details on all of TSA events in 2020 please visit: <https://www.tsa-voice.org.uk/events>

The International **Technology** Enabled Care Conference 2020

2nd - 3rd Nov, The ICC, Birmingham

www.iTECconf.org.uk

Conference Theme: Citizen Powered Communities, strands on Data, Partnerships and Workforce Development

- Over 950 delegates
- Over 55 exhibitors, with the latest innovative solutions
- A mix of plenary and breakout sessions
- Best practice examples – **your chance to present your work, via the call for papers**
- Innovation stage
- Interactive and networking zones
- ITEC Awards – presented at the gala dinner on the evening of the 2nd November

Event Launches this week – Early Bird booking rates available – www.ITECconf.org.uk
