

Quality • Safety • Innovation

How we have responded during COVID and the importance of QSF

Wendy Hodgson

TEC Quality – Lead Auditor

Certified Organisation

Quality · Safety · Innovation

What difference has the Quality Standards Framework audit process made for organisations, customers and commissioners?

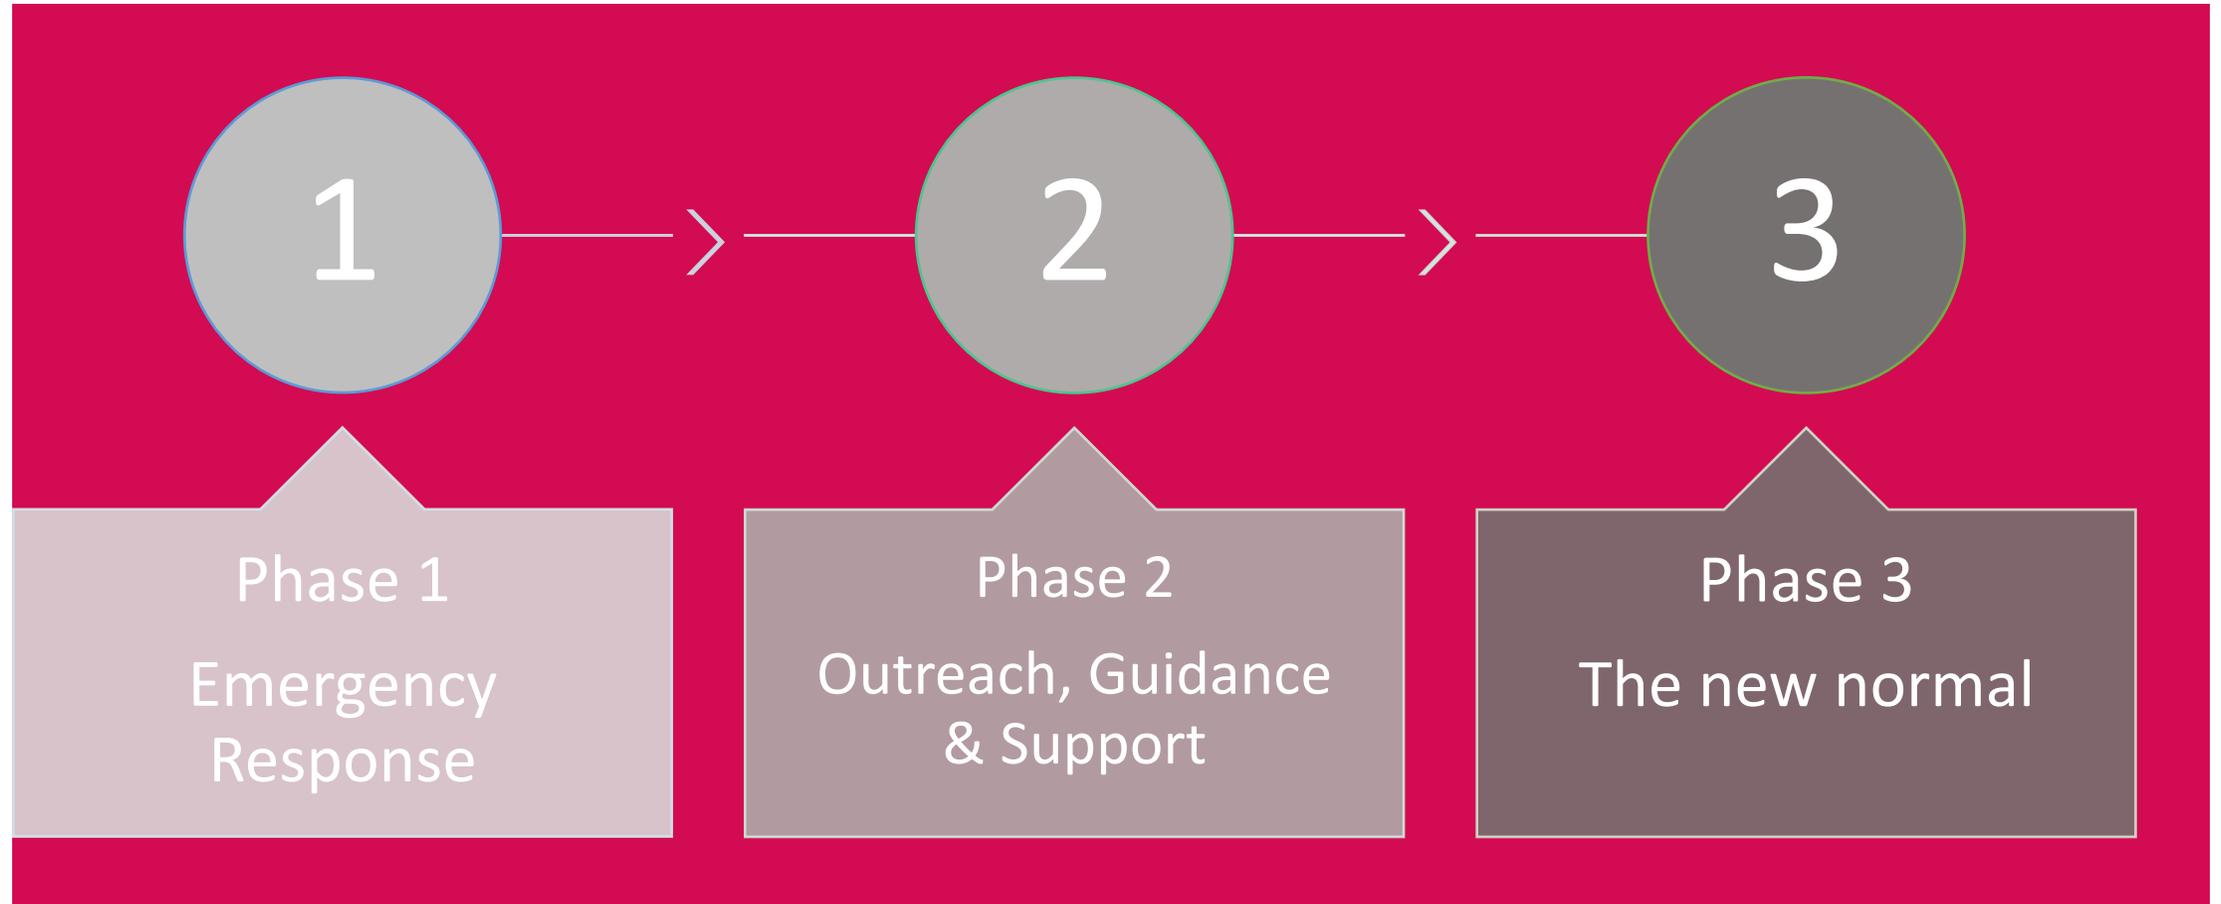

How have TEC Quality responded to the impact of COVID-19?

How do we continue to ensure TEC industry services and suppliers are operating safely and delivering high quality services in the new pandemic world?

Transition to
the Quality
Standards
Framework

“Wow – What a difference!”

COVID-19 – TEC Quality Response

The QSF is Evolving

- Learning lessons and gaining insight
- Challenging the industry to do things differently
- Raising the TEC Industry profile with Government, NHS, DHSC etc.

Setting Quality
Standards

Driving up safety

Encouraging
Innovation
