28<sup>th</sup> September 2022

# In December 2021, we published the white paper 'People at the Heart of Care'

In September 2021, the government announced an additional £5.4bn over three years, of which £1.7bn will begin major improvements across the adult social care system in England. We undertook extensive engagement to develop and shape this white paper.

The white paper sets out our 10-year vision for person-centred care. It puts **personalised care at the core** of this vision, which is underpinned by three main principles:

People have choice, control, and support to live independent lives

People can access outstanding quality and tailored care and support

People find adult social care fair and accessible

- Within each of these principles are a series of 'I statements' that describe what our 10-year vision should feel like for people who interact with the social care system.
- The 10-year vision will serve as a framework for future spending decisions and fiscal events.

. . .

# A strong shared ambition for housing

## Housing Transformation Fund – our design thinking

Local Partnerships are the foundation for delivery

An ambition for every place to have a *jointly-owned local strategy*, based on evidence of need and supply

Local Partnerships based around the *geographic footprint* that works best for *that* place

Funding available to *accelerate or scale-up* delivery of those local strategies

Funding as revenue for care & support (but with flexibility). Not capital for construction.

Using this Funding to *leverage other sources of investment* 

A comprehensive and front-leaning *support offer* from DHSC and expert partners

Collecting and sharing the evidence of impact (for people!) and in shaping local markets

A "prospectus" setting out how funding can be used, priorities for the fund, and full information for local places

#### **Housing Transformation Fund - our proposition**

Local Partnerships can access two funding streams – *open at any time* 

### **Strategy & Partnership Funding**

To develop local partnerships, evidence and strategy – or strengthen & refresh existing work.

#### **Local Places can describe:**

- Strategy & partnership in place
- Long-term investment strategy is in place
- Impact local place expects to deliver
- How local place will leverage additional investment
- Plans for sustainability
- Planned evaluation

### **Investment Funding**

To deliver local change – to accelerate or scale up the delivery of local strategies supporting more people; testing innovative models

> NB - we are *not* proposing that the investment is used to directly fund construction of new supported housing.

## October - December

- Dialogue with local places and partners to:
  - Raise awareness of the Fund
  - Co-design the finer detail of delivery
  - Develop and agree our prospectus
- Behind the scenes work to put the delivery architecture and support offer in place.

# January - March

- Support offer becomes available
- Prospectus (and all the detail of the Fund) available
- Open dialogue with places to support development of early bids

# FY 23/24

- Fund in full operation
- Ongoing, full support offer
- Rolling process for making "Investment Funding" grants
