

# Update on TSA ADASS Blueprint

**Paul Berney**

**The Future of Social Care: Powered by Technology Enabled Care**  
Sept 2025

In Partnership With:

# The long term drivers of change

**Aging  
population**

**Rising  
demand**

**Budget  
pressures**

**Carer  
shortage**

# We are shifting to a world of new models of care

# The shift towards hybrid models of care

**We want to support  
people to stay in  
their own homes  
for longer **and**  
**avoid escalation of  
care needs****

**The promise of proactive and preventative care**

**Providing data and insight that  
supports making better informed  
care decisions**

**Who is it for?**

**What should the service deliver?**

**Which technologies do I use?**

**How do I launch?**

**How do I build the business case?**

**Where is the evidence it works?**

# A blueprint in three parts

**Step by step guide**

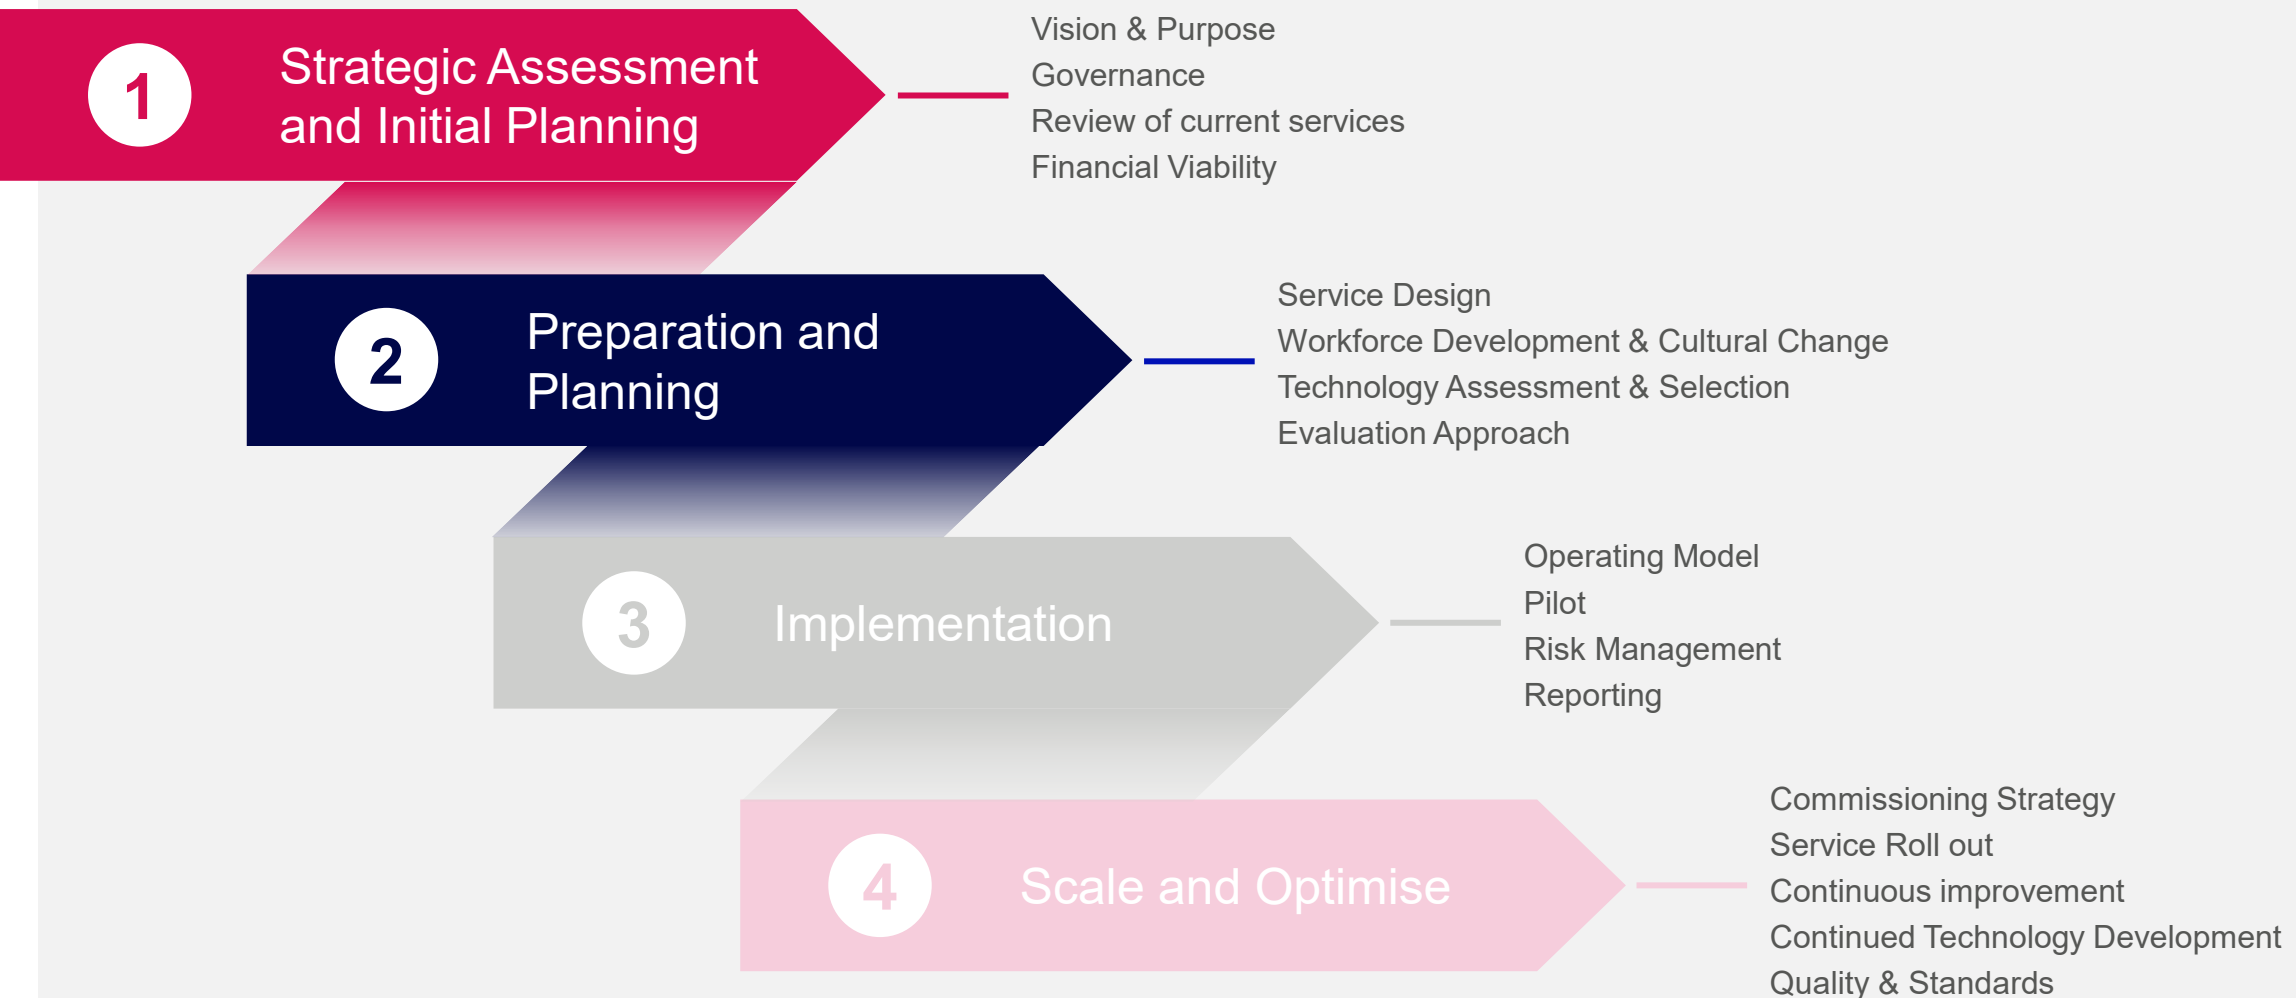

**Financial Model**

**Solutions overview**

# A phased approach to introducing new services

# Structure of the Guide

## Stage

Introduction: why is this stage important?

What are the goals of this stage?

What are the Key Considerations for this stage?

What are the Key Questions for Commissioners to ask?

- How it works
- Intended Care Related Outcomes
- Quantitative ROI
- Qualitative ROI
- Exemplar Local Authorities
- Potential Technology Partners
- Additional use cases for this solution
- Problems statements

# TSA support for Local Authorities

**Workshop the art  
of the possible**

**Assess &  
Recommend  
changes to current  
strategy**

**Offer guidance on  
implementing the  
Blueprint**

**Participation in  
the Community of  
Practice**

*They struck just the right balance between presentation and plenty of table-top time to discuss and capture an emerging plan that we will now use to refine our TEC Strategy for the forthcoming years. **We look forward to continuing to work with TSA on our journey.***
