

# Making insight-driven, preventative, and personalised outcomes a reality

Alex Nash Head of Assistive Technology June 2023

### Independence

To support users to remain living independently for as long as possible

### Reassurance

To provide reassurance to family, friends and carers via the app

Insight Joining up data to provide insight on an individual's wellbeing, to an enable a preventative approach to care

### **Drivers of change across TEC sector**

- 1. Person centred
- 2. Outcomes focussed
- 3. Integration
- 4. Increased focus on the **home**
- 5. Power of **Communities**
- 6. Need/Demand increase
- 7. **Capacity** people and financial resources are constrained
- 8. Digital transformation
- 9. Increasing focus on **prevention**

### The shift to preventative and personalised services

Traditional alarm services

Access Assure

Reactive only (alarm) Intervene to minimise consequences **Business** friendly Mainly professional staff involvement No use of data Analogue or digital connectivity Only social alarm frequency devices Deficits model of Care Closed and proprietary Equipment based model Discrete service models

Proactive and reactive (alerts & alarms) Intervene to prevent event **Consumer friendly** Expand circle of care – family & friends Insight derived from data **Digital first** Social alarm, IoT and BT devices Strengths based model of care **Open & Interoperable** Services based model of care Integrated service model

# WorkSpace

### Any professional user

#### Assure: Improving outcomes for all stakeholders

#### **Family & Friends**

- Positive reassurance
- Alerts to changes
- Early and pre-emptive interventions
- Reassurance of alarm safety net
- Provides confidence to continue with normal lifestyle

### **Social Care**

- Improved assessment
- Care planning and review
- Increased quality
- Better use of resources and increased capacity
- Preventative and integrated approach using strengths

#### **Health Care**

- Avoiding hospital admissions
- Enabling quicker hospital discharge
- Support AHP's in the community
- Preventative and integrated approach

#### Person

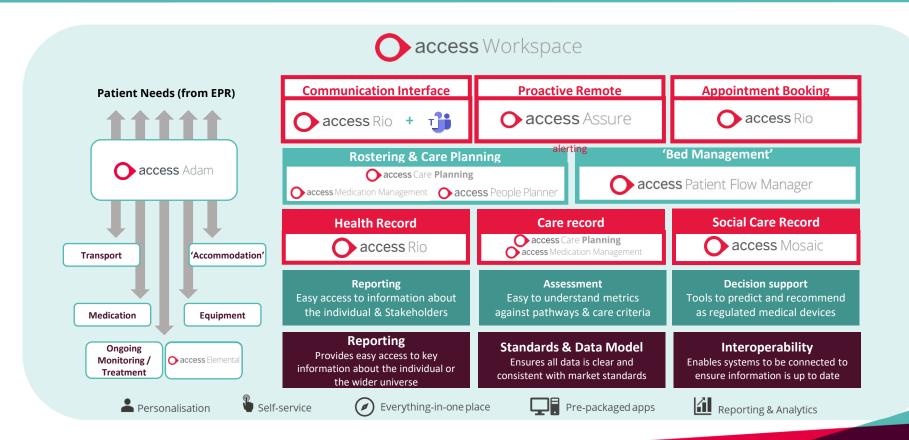

- Confidence
- Reassurance
- Independence

#### Service Provider

- Digital services
- Consumer focused
- Opportunity for new services
- Future proof
- Simpler installation
- More engaged stakeholders
- Greater integration with prescribers and Commissioners

#### **Access Virtual Wards**
