The Quality Standards Framework and UKAS Accreditation

- The United Kingdom Accreditation Service is the sole national accreditation body recognised by the British government to assess the competence of organisations that provide certification, testing, inspection and calibration services
- TEC Quality runs the only externally accredited (UKAS) Quality Standards Framework for TEC in the UK,
- An Outcome Based Scheme that puts the person at the Heart of Service Delivery
- Drives Continuous Improvement and Innovation
- An Audit process completed on an Annual basis
- Embed Quality and Safety into Service Delivery
- Moving to a Digital Auditing Platform in 2024

Technology Enabled Care (TEC) Referral Guidance

Direction on how TEC providers are to establish referral pathways into Urgent Community Response (UCR)

Version 1.0

5 'gold standard' indicators for areas to work towards

1

There are direct referral routes in place from locally operating QSF-certified TEC responder services into the UCR service, which don't rely on clinician-to-clinician referral

2

Only activity which is inappropriate for UCR response is directed to 999, with responsibility being maintained by the TEC provider until this transfer of care occurs

3

The UCR service has open lines of communication into its locally operating QSF-certified TEC responder services, which limit the amount of rejected referrals due to capacity limitations

4

Training on appropriate referral reasons is available to local QSF-certified TEC responder services, with the UCR service having an 'accept all' approach to referrals from providers who've completed this training

5

Induction and refresher training for TEC to UCR pathway is co-designed and co-delivered frequently, with at least quarterly PDSA approaches to understand the reason for and mitigate against future rejected referrals

Next Steps For TEC Services 2024

Use the National guidance to establish and enhance current local referral pathways

Prepare UCR teams for the roll out TEC National Provider referrals into UCR

Use TEC Sector data to work proactively alongside UCR teams to capture changes for people in a preventative way

Promote the QSF – The next QSF Journey Group starts in April 2024 – includes group training and information sharing sessions.

Create case studies to share with the Sector to share best practice and new ways of working.

Ensure Fire Safety is at the forefront of service – TEC Sector, Health, Housing and Social Care

The Future – Special Interest Groups - Virtual Wards & Telehealth, Enhancing TEC Services within Domicillary Care & Care Homes.
