Councils are making progress to shift their TEC ambition into action.

Percentage of Councils that have **increased** or **decreased** their regular use of TEC in the last 12 months

1 Adopt bold new approaches to break long-standing barriers

Secure long-term funding for TEC is a challenge councils need to overcome

Raising awareness of TEC within the council's workforce

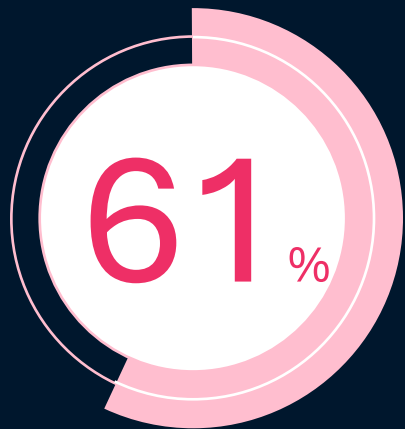

8 out of 10 councils do not have the capability needed to deliver their ambition for TEC in the next 12 months

2 Target TEC where it aligns to council's priorities and delivers the greatest impact on immediate pressures

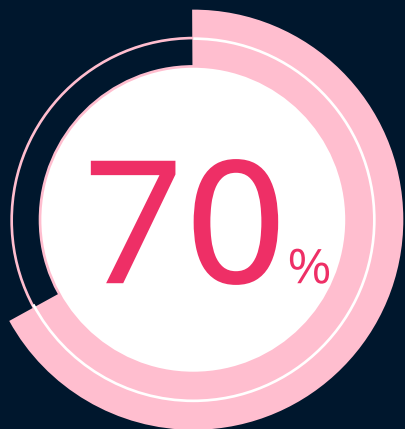

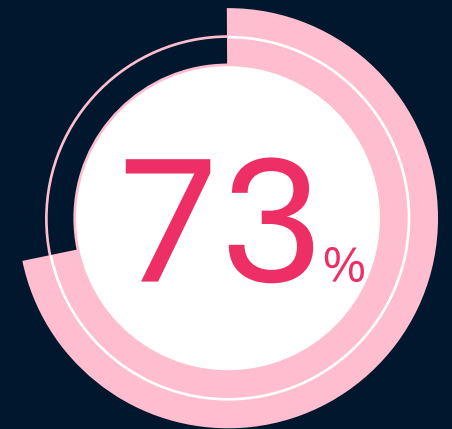

Learning Disabilities and Autism support

Smarter decisions, faster enabled by TEC-data

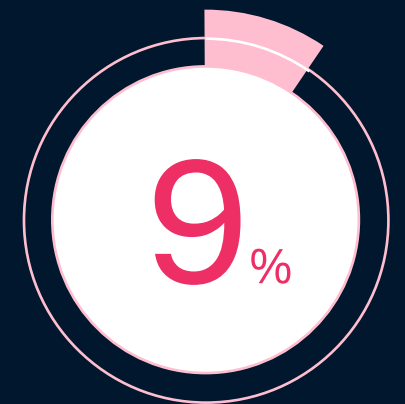

Plan to use TEC more to support people with learning disabilities

Priority TEC development in next 12 months?

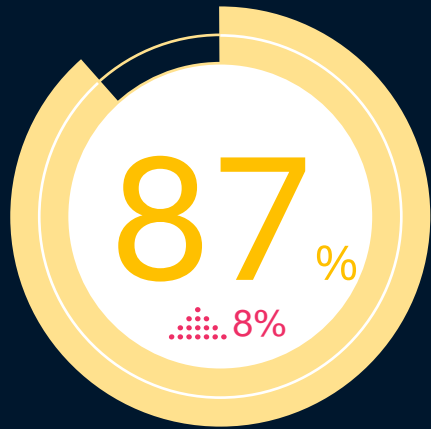

Plan to use TEC more to support autistic people

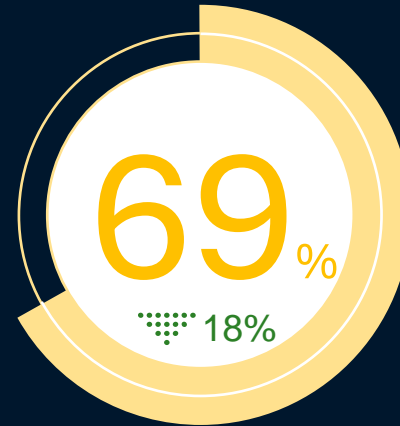

Workforce has a strong understanding of how to use TEC data to make smarter decisions

3 Measure the impact with precision to drive reinvestment and sustainable growth

Building an investment case, people truly believe in

Measuring the impact of TEC approach on people who support it

Expect an increase in funding in the next 12 months

Thank you
