and enriching lives

The TSA/ADASS Blueprint

700+

Downloads of the blueprint makes it the TSA's most popular publication ever.

The interest and appetite for proactive and preventative care is high.

A phased approach to introducing new services

Three headline goals for the North East

Establish the North East as the first region in the country with a complete understanding of proactive and preventative services

Provide each Local Authority with benchmarking against the ADASS TSA Blueprint, with clear recommendations for short, medium, and long term action.

Create the first Regional Strategy for testing, developing and rolling out proactive and preventative services
