

Do you want to be an important part of a brand new Technology Enabled Care Service that NRS Healthcare are delivering in partnership with the Torbay and South Devon NHS Foundation Trust? We're setting up a brand new service that will see the lives of people in Torbay be improved through the application of technology as an integral part of their care and support. We have a range of roles available working with members of the public and alongside other health and social care professionals.

We're offering a really interesting role emerging job for an occupational therapist. You'll be involved with telephone and face to face assessments, develop expert TECS product and service knowledge and work alongside other health and social care professionals, community and voluntary sector groups, driving transformational change of care pathways for people living in Torbay. You'll get professional support from the NRS Clinical Services division too to support your professional development.

NRS Healthcare is the UK's leading provider of Community Equipment Services, Wheelchair Services and Telecare Enabled Care.

We now have a growing and dynamic team of 23 Occupational Therapists and 29 support staff working within NRS Healthcare Clinical Services and based at locations around the country. Our Clinical Team is led by qualified and experienced Occupational Therapy Managers and our Clinical Governance policy ensures that CPD, supervision and learning and development are high on our agenda.

We are looking for highly motivated individuals who can help us in our mission to improve people's quality of life and independence every day. Our services allow people to remain in their homes, this helps prevent extended hospital stays, allowing the NHS to deliver frontline care where it is needed most. Our Occupational Therapists and clinical support staff are a pivotal part of the success of the service we provide.

What we look for in an Occupational Therapist

- Experience and skills of working with a variety of service users across a range of disabilities
- Experience of working within a health and/or social care setting
- Experience of supervision of staff
- Effective written and verbal communication skills
- Effective organisation and time management skills
- Ability to prioritise your work
- Ability to use own initiative
- Ability to motivate others

- Positive attitude
- Willingness to learn
- Good interpersonal skills
- Demonstrable knowledge and practice of good customer care skills

- Ability to deliver training
- Ability to complete and use spreadsheets (Excel) and other IT based reports

In return we offer you the following;

- A chance to work as part of a great team doing a rewarding job
- Competitive salary and benefits package such as pension, life assurance, paid for CPD activities, discounts and offers
- Enhanced holiday of 33 days per year (inc banks) which increases with service up to 38 days per year (inc banks)
- Company sick pay scheme which increases with service
- Participation in our employee recognition scheme

If you believe you have the necessary skills and experience to be an NRS Healthcare Occupational Therapist, please forward your CV and a covering letter explaining why you are applying for the vacancy.
