- Free trial opportunity for TSA members

£6.1bn funding gap in adult social care Population over 65 to grow by 49% by 2040 1 in 6 adults working in adult social care by 2030 TEC in Homecare & Assisted Living £9.5bn TAM*

*The TSA Business Plan 2021-2022: The New Roadmap for Technology Enabled Care

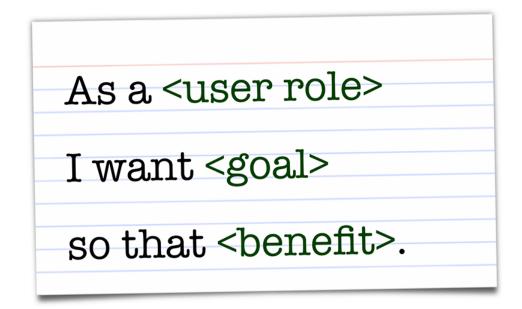

The impact of Covid

Creating user stories

As acarer, I want ...to be alerted when a resident is unwell, so that ...I can prioritise a visit.

The impact of data

- Improved response times for unwell residents
- Increased monitoring of residents without additional staff resources

Case study: London Borough of Sutton

- 22 sheltered housing schemes with 500 properties
- 83 residents are supported through Sutton Connect
- 548 residents (55 years old and above), of which
 502 live alone
- Currently unable to visit residents, relying on weekly telephone calls only

As a carer, I want to be alerted when a resident is unwell, so that I can prioritise a visit.

No plugging in or charging

Effortless resident installation

No physical maintenance or battery changes

Reliable and secure connectivity

Smart and accurate customizable alerts

Life-saving impact

"Without the intervention enabled by this solution, the resident would have passed away within hours."

Attending paramedics

Further peace of mind

Exclusive to TSA Members

Device trial offer*

- Up to 5 Assisted Living devices
- Free 3-month trial period
- Dashboard access
