The Digital Future of Independent Living

PNC IP

Advanced technology, digital by design

Enables ARCs to move seamlessly towards the future, supporting both analogue and digital services in the full range of living environments.

The Digital Future of Independent Living

LIFELINE DIGITAL

Setting a new standard in TECs delivery

Supports the drive towards preventative and personalised care and drives efficiencies for care providers, whilst minimising disruption for users.

LIFELINE SMART HUB

Connecting people, connecting care

Provides a future-proof foundation for the delivery of digital care.

Putting Our Customer First at Every Step

CUSTOMER FIRST APPROACH

Consultative approach designed with and around the customer.

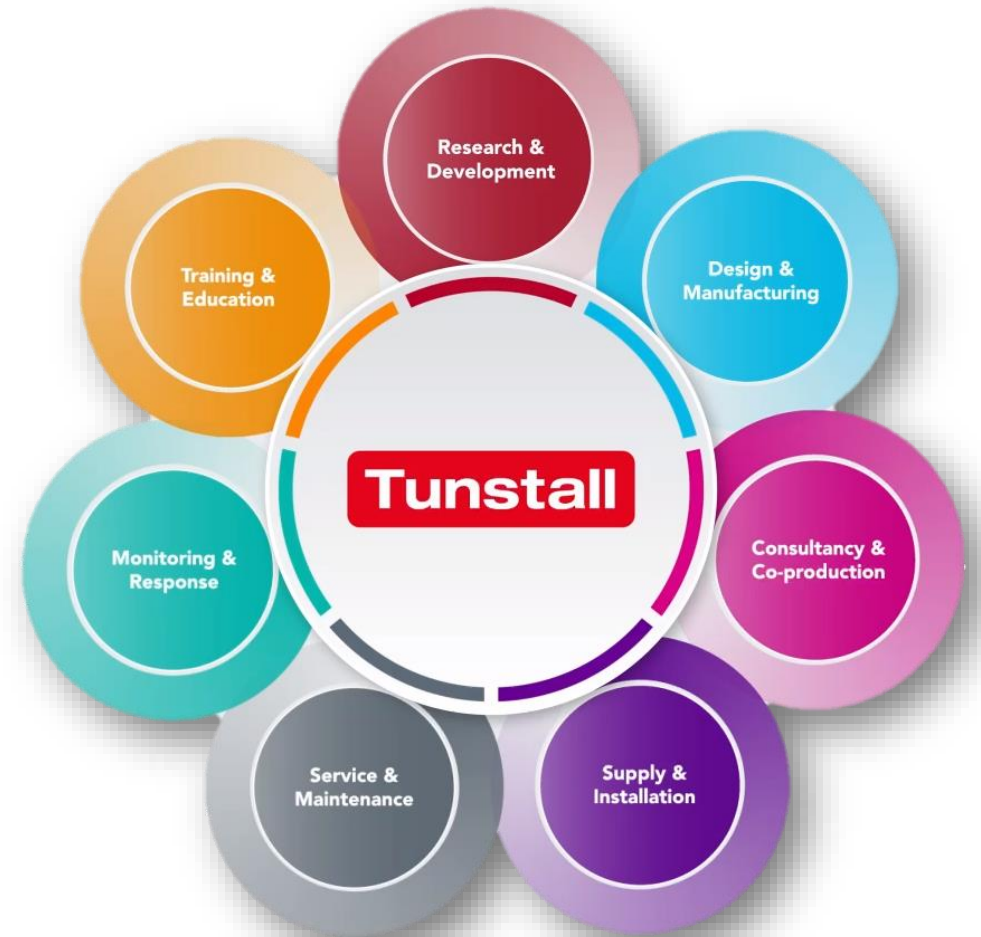

Simplicity in an increasingly complex environment.

Drive continuous improvements in product and service.

Providing modular solutions to meet customer requirements.

Thank you
